turn yellow. You can change your answer if you want.

Science Quiz: Biology - The Cell

Cell membranes are much more than passive barriers; they are complex and dynamic structures that control what enters and leaves the cell. This module explores how scientists came to understand cell membranes, including the experiments that led to the development of the fluid-mosaic model of membrane structure. The module describes how the components and structure of cell membranes relate to ...

GCSE Quizzes | Love Biology

Since prehistoric times, people have pondered how life came to exist. This module describes investigations into the origins of life through history, including Louis Pasteur's experiments that disproved the long-held idea of spontaneous generation and and later research showing that the emergence of biological molecules from a nonliving environment - or abiogenesis - is not only possible ...
