ISO flanges provide a complete range of fittings to mount with tubing sized 1/2 inch up to 20 inches in diameter. The flange system consists of two sexless, 360° rotatable flanges, a centering ring for alignment and support of the sealing ring and a fastener to compress the seal between the two flanges. ISO-QF

ISO Flanges & Fittings - CCR Process Products

ISO-K flanges ISO-K flanges are joined around the periphery with Double Claw Clamps. Instead of Double Claw Clamps we also offer rotatable bolt ring and retainer ring. This fixturing adapts a ISO-K flange into a rotatable ISO-F flange. Single claw clamps are used to join a ISO-K flange to a tapped nonrotatable flange from a pump or gate valve.
